Community Care is:

- Up-to-date
- Comprehensive
- Coordinated
- Patient Centered
Threats to Community Care:

- Regulatory reporting burden
- Insurance/Payment workload
- Decreased reimbursement
- Reimbursement changes to new models
Quality and Value

- As defined by who?
- Appropriate use
- Lowest cost setting
Oncology Medical Home

- Oncology practice becomes the “medical home” or gatekeeper for the cancer patient

- It’s all about the processes that will improve quality and reduce costs

- And measuring those processes

- Quality defined by patients, providers, payers and patient advocates
Have the Conversation

- Friends, family
- Elected officials
- Employers
- Insurance companies
